# Firewall: Debug and Troubleshoot

| CODE: | LENGTH: | PRICE: |
|---|---|---|
| PAN_EDU-311 | 24 Hours (3 days) | €2,150.00 |

## Description

Firewall 8.0: Debug and Troubleshoot is the next-level course to Palo Alto Networks® Firewall 8.0 Essentials: Configuration and Management (EDU-210). The three-day, instructor-led Firewall 8.0: Debug and Troubleshoot course expands on the topics from the 210 course with hands-on troubleshooting labs:

- Investigate networking issues using advanced firewall tools including the CLI
- Analyze advanced logs to resolve various real-life scenarios
- Solve advanced routing scenario challenges

Tämä kurssi toteutetaan yhteistyössä Exclusive Networksin kanssa.

## Objectives

Successful completion of this three-day, instructor-led course will enhance the student's understanding of how to troubleshoot the full line of Palo Alto Networks® nextgeneration firewalls.
Students will receive hands-on experience troubleshooting the security, networking, threat prevention, logging, and reporting features of the Palo Alto Networks® PAN-OS® operating system.
Upon completion of this class, students will have an indepth knowledge of how to troubleshoot visibility and control over applications, users, and content.

## Audience

Security Engineers, Security Administrators, Security Operations Specialists, Security Analysts, Network Engineers, and Support Staff

## Prerequisites

Students must complete the Firewall 8.0 Essentials: Configuration and Management (EDU-210) course and have an understanding of network concepts, including routing, switching, and IP addressing. They also will need in-depth knowledge of port-based security and security technologies such as IPS, proxy, and content filtering.

## Programme

Module 1:Troubleshooting Methodology
Module 2: Platform Comparisons When Troubleshooting
Module 3: Flow Logic
Module 4: Administration Troubleshooting
Module 5: Layer 3 Troubleshooting
Module 6: Policy Troubleshooting
Module 7: User-ID™ Troubleshooting
Module 8: VPN Troubleshooting
Module 9: GlobalProtect™ Troubleshooting
Module 10: Performance Troubleshooting
