# Firewall: Debug and Troubleshoot

<b>CODE:</b>	<b>LENGTH:</b>	<b>PRICE:</b>
PAN_EDU-311	24 Hours (3 days)	€2,150.00

## Description

Firewall 8.0: Debug and Troubleshoot is the next-level course to Palo Alto Networks® Firewall 8.0 Essentials: Configuration and Management (EDU-210). The three-day, instructor-led Firewall 8.0: Debug and Troubleshoot course expands on the topics from the 210 course with hands-on troubleshooting labs:

- Investigate networking issues using advanced firewall tools including the CLI
- Analyze advanced logs to resolve various real-life scenarios
- Solve advanced routing scenario challenges

Tämä kurssi toteutetaan yhteistyössä Exclusive Networksin kanssa.

## Objectives

Successful completion of this three-day, instructor-led course will enhance the student's understanding of how to troubleshoot the full line of Palo Alto Networks® nextgeneration firewalls.

Students will receive hands-on experience troubleshooting the security, networking, threat prevention, logging, and reporting features of the Palo Alto Networks® PAN-OS® operating system.

Upon completion of this class, students will have an indepth knowledge of how to troubleshoot visibility and control over applications, users, and content.

## Audience

Security Engineers, Security Administrators, Security Operations Specialists, Security Analysts, Network Engineers, and Support Staff

## Prerequisites

Students must complete the Firewall 8.0 Essentials: Configuration and Management (EDU-210) course and have an understanding of network concepts, including routing, switching, and IP addressing. They also will need in-depth knowledge of port-based security and security technologies such as IPS, proxy, and content filtering.

## Programme

- Module 1: Troubleshooting Methodology
- Module 2: Platform Comparisons When Troubleshooting
- Module 3: Flow Logic
- Module 4: Administration Troubleshooting
- Module 5: Layer 3 Troubleshooting
- Module 6: Policy Troubleshooting
- Module 7: User-ID™ Troubleshooting
- Module 8: VPN Troubleshooting
- Module 9: GlobalProtect™ Troubleshooting
- Module 10: Performance Troubleshooting
