CSSLP Online Self-Paced Training

CODE:	DURÉE:	PRIX H.T.:
ISC_CSSLP_OLSP	720 Hours (90 Jours)	Prix sur demande

Description

Official ISC2 Online Self-Paced CSSLP Training is a groundbreaking way to prep for certification that uses artificial intelligence to customize your learning journey. It pinpoints areas that require additional focus and guides you through your exam prep in a way that's truly personalized.

Study smarter, not harder, with these key advantages:

- Personalized instruction
 - Content, pace and difficulty adapt to your individual knowledge, learning speed and confidence level.
- Enhanced engagement
 - Immediate feedback and dynamic content enable you to learn at an appropriate level.
- Time savings
 - Training time is optimized by focusing on areas that require the most review.
- Improved learning outcomes
 - The platform identifies areas requiring further review and provides targeted support to maximize your understanding of the content.

What's included with each option*:

- Self-paced online adaptive learning journey
- Data-driven analytics dashboard for real-time feedback on learner progress
- Robust search functionality to narrow topics
- Pre- and post-course assessments
- Knowledge checks and end-of-domain quizzes
- Official ISC2 CSSLP eTextbook
- Official ISC2 CSSLP Study Questions eBook
- Interactive content
- Domain-by-domain study sheets with key points
- Email content support
- Online interactive flash cards
- Glossary of Terms
- 24/7/365 chat technical support

*Learners receive same-day access to the course materials. Your 90- or 180-day access starts at date of purchase.

Objectifs

Certified Secure Software Lifecycle Professional (CSSLP) training leverages the power of artificial intelligence, guiding students through a self-paced learning experience adapted to their unique needs. It covers the advanced skills and knowledge for authentication, authorization, and auditing throughout the software development life cycle (SDLC) using best practices, policies, and procedures established by the cybersecurity experts at ISC2.

Audience

CSSLP training is for those seeking a comprehensive review to pursue CSSLP certification. It is ideal for security professionals with at least four years of SDLC work experience in one or more of the domains listed below.

Programme

What Is Covered?

- Domain 1: Secure Software Concepts
- Domain 2: Secure Software Life Cycle Management
- Domain 3: Secure Software Requirements
- Domain 4: Secure Software Architecture and Design
- Domain 5: Secure Software Implementation
- Domain 6: Secure Software Testing
- Domain 7: Secure Software Deployment, Operations, and Maintenance
- Domain 8: Secure Software Supply Chain

What Will You Learn?

- Summarize the concepts that when applied result in secure software.
- Use the secure software life cycle to manage the protection of data.
- Compare the categories of secure software requirements to inform appropriate safeguards.
- Design and build the secure software architectures.
- Apply the security practices to implement secure software.
- Conduct the testing to ensure the security of software.
- Implement the security practices when software is deployed and maintained in an operations environment.

Test et Certification

Requisites:

To earn a Validation of Completion, learners must:

- Complete and pass each domain with a score of 80% or higher (includes all knowledge checks and the end-of-domain assessment).
- Complete the Learner Acknowledgement, verifying you are enrolled and authorized to take the final assessment.
- Complete and pass the final assessment with a score of 80% or higher.
- Complete the course evaluation survey.

Validity:

A Validation of Completion is awarded to learners who meet the requisites and successfully complete their final assessment. While it may be used to prepare for professional certification, the Validation of Completion does not demonstrate competency, establish expertise or imply licensing or accreditation in any field. To earn the CSSLP certification, you must pass the exam and meet the experience requirements.

Certificates are valid for three years from the date issued. Certificates cannot be renewed at the end of the three-year term.

Informations supplémentaires

Languages Offered

At this time, content is only available in English.

Cancellation Policy

ISC2 Official Certification Training is not eligible for refunds.

CPE Credits

Official ISC2 online training qualifies for Continuing Professional Education (CPE) credits. See the [ISC2 CPE Handbook](#) and [ISC2 CPE Opportunities](#) for details.

Technology Requirements

The following are system requirements needed to enhance your overall learning experience. A stable and continuous internet connection is required. In order to record your completion of the online learning courses, please ensure you are connected to the internet at all times while taking the course.

Hardware Specifications

- Processor 2 GHz +
- RAM 4 GB +
- Monitor minimum resolution (1024 x 768)
- Video card
- Keyboard and mouse or other assistive technology

Computer Peripherals

- Speakers/headphones (noise-cancelling headset is recommended)
- Microphone
- Camera (recommended)

Supported Operating Systems

- Macintosh OS X 10.10 to present
- Windows 10 to present

Supported Browsers

- Google Chrome
- Microsoft Edge
- Mozilla Firefox

Application Software

- Adobe Reader:
<https://get.adobe.com/reader/>

Dates de session

Sur demande. [Merci de nous contacter](#)
