Overview of BRMS on IBM i

CODE: **DURÉE:** **PRIX H.T.:**

AS28W1G 8 Hours €95.00

Description

This course provides an overview of the features and functions supported by Backup, Recovery and Media Services (BRMS). BRMS is an integrated and comprehensive tool for managing backup, recovery, archive, and retrieval operations for a single Power System with IBM i or multiple IBM i systems at a site or across a BRMS Network.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the **Self-Paced Virtual Classes and Web-Based Training Classes** on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course.

<http://www.ibm.com/training/terms>

Objectifs

- List the features and functions provided by BRMS
- List the different software that makes up the BRMS product
- Discuss the benefits of using the work with media (WRKMEDBRM) command
- Discuss the benefits of using the work with media information (WRKMEDIBRM) command
- Discuss the benefits of using backup control groups to do your backups

Audience

This is an intermediate course for Power System with IBM i administrators, IBM Business Partners, and anyone else who would like practical knowledge of the features and functions supported by BRMS.

This intermediate course is a prerequisite for all students who will be attending BRMS for IBM i (AS28G).
