# IBM Maximo Asset Management 7.6 Implementation Bootcamp

<b>CODE:</b>	<b>DURÉE:</b>	<b>PRIX H.T.:</b>
ZL1_MAX7600	72 Hours (9 Jours)	€7,000.00

## Description

This 9-day hands-on technical boot camp provides students with the ability to make informed decisions for the design, planning, and execution of a Maximo Implementation.

This in-depth workshop covers Supply Chain, Maximo features and functions, and materials management and implementation best practice. It also includes business process configurations, customizations, systems integrations, and post-Implementation considerations and activities.

## Objectifs

**Objectives:** After you complete this course, you can perform the following tasks:

- Explain the value proposition for Maximo 7.6 and the Enterprise Asset Management portfolio including TRIRIGA and APM
- Perform a Demonstration of Maximo 7.6
- Have a clear understanding of the high-level capabilities and functionality of the core Maximo 7.6 product and key industry solutions and add-ons including Scheduler, Scheduler Plus and MAHI
- Employ and describe the different Maximo applications and functions as they relate to business processes
- Navigate, query, and retrieve data from the Maximo application
- Demonstrate the use of the Work Centre User interfaces
- Describe the asset management life cycle
- Enter core data elements and data structures in Maximo
- Modify screen designs and extend the Maximo data-model
- Implement business process configurations (Workflow)
- Customize Maximo using automation scripting
- Follow a structured methodology for troubleshooting Maximo

## Audience

This course is intended for Maximo 7.6 Implementation Consultants, Maximo Support consultants, Maximo Administrators, Technical Sales, Solution Architects and Project Managers
