Red Hat Gluster Storage Administration

CODE:	DURÉE:	PRIX H.T.:
REH_236	21 Hours (3 Jours)	€2,610.00

Description

This course is for senior system and storage administrators who are interested in deploying scalable, highly available storage on off-the-shelf hardware and in cloud environments.

Students will learn how to install, configure, and maintain a cluster of Red Hat Storage servers. The course will also explore highly available common Internet file systems (CIFS) and network file systems (NFS) using Clustered Trivial DataBase (CTDB), unified file and object storage, geo-replication, and storage tiering.

This course can help you prepare for the Red Hat Certificate of Expertise in Hybrid Cloud Storage Exam (EX236).

Note: Red Hat Gluster Storage Administration is part of our emerging technology series of courses. These courses focus on Red Hat's newer, evolving technologies. Emerging technologies courses are feature- and functionality-focused and are conducted like guided labs, with little lecture. For more information about these courses, please [contact us](#).
