Introduction to IBM Storage Fusion

CODE:	DURÉE:	PRIX H.T.:
SSFH1DG	4 Hours	€150.00

Description

The foundations of the IBM Spectrum Fusion HCI (Hyper-converged Infrastructure) and SDS (Software-defined Storage) are covered in this course. It introduces students to IBM Spectrum Fusion, how to install the solution, configure it, and navigate the user interface.
The course delves deeper into how to use its data protection features, manage events, log collection, and how to use its graphical user interface.
There are demos to show these concepts in action.
This course earns you the IBM Spectrum Fusion Technical Essentials badge: https://www.credly.com/org/ibm/badge/ibm-spectrum-fusion-essentials.

Objectifs

- Provide an overview of IBM Spectrum Fusion
- Identify the requirements for setting up IBM Spectrum Fusion
- Summarize how hardware resources on IBM Spectrum Fusion HCI are managed
