# OpenShift Enterprise Development

<b>CODE:</b>	<b>DURÉE:</b>	<b>PRIX H.T.:</b>
REH_DO290	24 Hours (3 Jours)	€2,100.00

## Description

OpenShift Enterprise Development (DO290) is part of a series of courses that focus on using OpenShift Enterprise by Red Hat® to automate a portion of the software delivery pipeline. The course immerses the student in a DevOps environment through the use of agile software development methodology, test-driven development, continuous integration, and a standard operating environment through the use of Platform-as-a-Service (PaaS).

## Training Development

### Course introduction

Introduce and review the course.

### Development environment review

Describe the developer's tools, agile practices, and deployment environment that will be utilized in this course.

### Bookstore application review

Become familiar with the course application architecture, features, and project layout.

### Introduction to OpenShift Enterprise

Describe the features and architecture of OpenShift Enterprise.

### Deploy applications on OpenShift Enterprise

Define, build, and deploy an application on OpenShift Enterprise.

### Implement continuous integration

Establish continuous integration with Jenkins.

### Manage OpenShift Enterprise applications

Control and maintain applications using the OpenShift Enterprise command line interface.

### Create complex deployments

Create deployments that utilize clustering, load balancing, and customized node scheduling.

### Troubleshoot applications

Use debugging and logs to troubleshoot problems with application performance or deployment issues.

### Customize OpenShift Enterprise

Create custom source image containers, templates, and builders.

### Course review

Practice the skills learned in this course.

## Dates de session
