Control-M 21.x: Fundamentals Scheduling

CODE:	DURÉE:	PRIX H.T.:
BMC_AUTO-CMFS-0920	32 Hours (4 Jours)	€3,392.00

Description

1day : Control-M 20.x: Fundamentals Operating

Control-M makes it easy to define, schedule, manage and monitor application workflows, ensuring visibility and reliability, and improving SLAs. Control-M Users can monitor and manage multi-application workflows from a single point of control with full access to logs and output.

This instructor-led training helps participants to understand how to monitor your workflows and identify potential problems.

The topics covered are using Viewpoints to monitor active jobs and performing necessary job actions, monitoring alerts, and file transfers.

4 days : Control-M 20.x: Fundamentals Scheduling

The Control-M 20.x: Fundamentals Scheduling course provides IT professionals with the concepts and hands-on experience of using distributed Control-M.

Participants will learn to manage job processing supported by Control-M/Servers and Control-M/Agents, including the creation, scheduling, and deployment of job processing definitions using the Planning domain. Hands-on labs allow participants to apply the procedures and concepts presented in the class.

Objectifs

1day : Control-M 20.x: Fundamentals Operating

- »List the basic Control-M operations
- »Understand the different Control-M Roles and their responsibilities in the Control-Menvironment
- »Work with Control-M Web interface
- »Navigate through the Monitoring domain
- »Use the Configuration domain to monitor Control-M components and their status
- »Monitor and manage job processing in the Control-M environment
- »Use Properties pane to access job details
- »Use Find functionality to search for jobs
- »Use Neighborhood functionality to search for jobs in the neighborhood
- »Use Alerts panel to monitor alerts
- »Manage the alerts using various actions
- »Work with Historical and Archived data
- »Use Control-M MFT Dashboard to monitor the file transfers that happen across multiple platforms

CERTIFICATION PATHS

» This course is part of the Certified Associate Certification Path for Control-M for Operators, Schedulers, Administrators, and Consultants.

4 days : Control-M 20.x: Fundamentals Scheduling

- » Understand the architecture of a typical Control-M environment, Control-M concepts, and terminology
 - » Create jobs in a workspace
 - » Create job dependencies
 - » Define and manage conditions
 - » Examine the scheduling options available for job definitions, including the use of calendars
 - » Create and use Calendars
 - » Work with the default and customized Viewpoints
 - » Describe the different scheduling options for Cyclic jobs
 - » Learn how to schedule a job/SMART folder during a date range
 - » Manage Alerts from the Control-M interface
 - » Describe the purpose and function of Notifications and On-Do actions
 - » Work with different types of Control-M Variables
 - » Learn how to add Variables to a job definition
 - » Use job output to create a variable
 - » Work with Control Resources and Quantitative Resources
 - » Define Workload Policies
 - » Use History domain to open an archived Viewpoint
 - » Create and modify templates
 - » Define functions in templates
 - » Understand the enhancements and capabilities of Control-M Reports
 - » Learn how to manage Control-M Reports
- CERTIFICATION PATHS**
- » This course is part of the Certified Associate Certification Path for Control-M for Schedulers.

Audience

1day : Control-M 20.x: Fundamentals Operating

- Operators
- Schedulers
- Administrators
- Consultants

4 days : Control-M 20.x: Fundamentals Scheduling

- Schedulers
- Operators

Programme

Module 1: Introduction to Control-M Operations

» Introduction to Control-M Operations

1day : Control-M 20.x: Fundamentals Operating » Control-M Roles and their Responsibilities

Module 2: Monitoring Control-M Jobs

» Introduction to Monitoring Interfaces

» Introduction to Control-M Web

» Introduction to Monitoring Domain

» Active Environment and New Day Process

» Introduction to Configuration domain

Module 3: Identifying Job Details and Dependencies

» Finding a Job and Neighborhood Jobs

» Finding a Service

» Accessing Job Details

Module 4: Managing Control-M Jobs

» Perform Job Actions

» Order Jobs, Folders, and Services

» Alerts

Module 5: Working with History and Archived Data

» Historical Viewpoint

» Archive Search

Module 6: Control-M MFT Dashboard

» Working with Control-M MFT Dashboard

Module 1: Control-M Solution Overview

» Control-M Solution Overview

4 days : Control-M 20.x: Fundamentals Scheduling » Roles and Responsibilities of a Control-M Scheduler

Module 3: Working with Control-M Jobs

» Creating Jobs

» Creating Job Dependencies

Module 2: Introduction to Control-M Concepts » Defining Conditions Manually

» Control-M Concepts

» Managing Workspace, Folder and Job Definition

- Module 4: Scheduling Control-M Jobs » Introduction to Viewpoints » Introduction to Cyclic Jobs
 » Introduction to Job Scheduling » Creating Viewpoints » Using Keep Active and Manual Confirmation
 » Introduction to Control-M Calendars » Creating Customizable Filters » Defining Execution Start Window
- Module 5: Managing Viewpoints Module 6: Job Execution Parameters
- Module 7: Managing Notifications and On-Do Actions » Introduction to Variables Module 8: Control-M Variables
 » Viewing and Acting on Alerts » Shared Variables Module 9: Working with Resources
 » Notifications Overview » Variables and Job Output » Introduction to Resources
 » Using On-Do Actions » Using Include Variables » Introduction to Control Resources
 » Introduction to Quantitative Resources
 » Introduction to Workload Policies
- Module 10: Using History Domain » Using Find and Update Module 11: Client Tools for Job Management
 » Introduction to Archived Viewpoints » Managing Job Versions Module 12: Control-M Reports
 » Introduction to Control-M Reports
 » Using Control-M Reports

Dates de session

Date	Lieu	Time Zone	Langue	Type	Garanti	PRIX H.T.
21 Jan 2025	BMC	CET	French	Instructor Led Online		€3,392.00
11 Mar 2025	BMC	CET	French	Instructor Led Online		€3,392.00
13 May 2025	BMC	CEDT	French	Instructor Led Online		€3,392.00
17 Jun 2025	BMC	CEDT	French	Instructor Led Online		€3,392.00
16 Sep 2025	BMC	CEDT	French	Instructor Led Online		€3,392.00
28 Oct 2025	BMC	CET	French	Instructor Led Online		€3,392.00
