API Lifecycle Governance with IBM API Connect v2018

CODE:	DURÉE:	PRIX H.T.:
Z11_WD509	14 Hours (2 Jours)	€1,480.00

Description

This course is also available as self-paced virtual (e-learning) course *API Lifecycle Governance with IBM API Connect v2018* (ZD509G). This option does not require any travel.

This course teaches you how to configure the gateway, portal, and analytics services in Cloud Manager that are used by the API Connect infrastructure through all phases of the API lifecycle. You manage all aspects of the provider organization in the API Manager user interface to create, publish, version, and retire API artifacts such as Products, plans and APIs themselves. You also learn how to manage consumer organizations who use the APIs that are made available on the Developer Portal. You learn how to add members to the consumer organization that provides access to the APIs on the Developer Portal. You learn how the layout of the Developer Portal can be customized. Finally, you call the APIs on the secure gateway and you view the graphs and metrics of API usage.

For information about other related courses, see the IBM Training website:
