## Description

In this course, you will learn how to use FortiProxy features, including policy types, content analysis, and security profiles. You will also explore FortiProxy policies, deployment, user authentication, high availability, monitoring, and how to protect your web traffic using content inspection, such as IPS, antivirus, web filtering, application control, and logging.

## Objectives

After completing this course, you will be able to:

- Deploy the appropriate FortiProxy configuration for your network
- Use the GUI and CLI for administration
- Control user web and application access using proxy policies
- Authenticate users for web access
- Inspect SSL/TLS-secured traffic
- Collect and interpret log entries
- Deploy FortiProxy devices as an HA cluster for fault tolerance and scalability
- Configure security profiles to neutralize threats and misuse, including the following profiles:
  - Antivirus
  - Web filtering
  - Application control
  - Content inspection
  - Data leak prevention
- Diagnose and correct common problems

## Audience

Networking and security professionals involved in the management, configuration, administration, and monitoring of FortiProxy devices used to secure their organization's user web traffic.

## Prerequisites

- Knowledge of network protocols
- Understanding of routers, switches, firewalls, and content inspection
- Basic understanding of proxy concepts

## Programme

1. Secure Web Gateway
2. FortiProxy Deployment
3. High Availability
4. User Authentication
5. Content Inspection
6. Content Analysis
7. Policy and Objects
8. Security Fabric Integration
9. Monitoring and Reporting

## Follow on courses

If you take the online format of this class, you must use a computer that has the following:

A high-speed Internet connection

An up-to-date web browser

A PDF viewer

Speakers or headphones

One of the following:

HTML 5 support or

An up-to-date Java Runtime Environment (JRE) with Java plugin enabled on your web browser

You should use a wired Ethernet connection, not a WiFi connection. Firewalls, including Windows Firewall or FortiClient, must allow connections to the online labs.

## Session Dates

On request. Please [contact us](#)

## Additional Information

[This training is also available as onsite training. Please contact us to find out more.](#)
