Essentials of IBM DOORS Next

CODE: ODC8100G **LENGTH:** 8 Hours **PRICE:** €245.00

Description

This course teaches analysts and engineers how to define, elaborate, organize, and manage textual and graphical requirements and requirements-related information in IBM DOORS Next Generation v7. DOORS Next Generation is a key component of the IBM Engineering Lifecycle Management (ELM). The product provides requirements definition and management capabilities in a fully-integrated environment that can also include IBM Rational Team Concert for change and configuration management, and IBM Rational Quality Manager for quality management.

Objectives

Upon completion of this course the student will be able to:

- Define, elaborate, organize and manage requirements in DOORS Next
- View and work with requirements and other artifacts in a collaborative context
- Create and edit requirements documents and other artifacts, including both textual and graphical artifacts
- Create, manage, and view traceability relationships between requirements and other artifacts

Audience

Business Analyst, Systems Engineer, Software Engineer, Requirements Engineer, Requirements Manager, Requirements Team Leader
