Veritas NetBackup Appliances 3.1.2: Configuration and Management

CODE:

LENGTH:

PRICE:

VER_NBA-3.1 CM   24 Hours (3 days)   €1,860.00

Description

The *Veritas NetBackup Appliances 3.1.2: Configuration and Management* course is designed for the IT Professional who is new to appliances and is responsible for configuring the 5330 and 5240 appliances, performing appliance maintenance tasks, operating and managing the appliance and troubleshooting the appliance.

This course covers how to configure the appliances and add storage to the appliances. You learn how the appliances easily integrate into the NetBackup environment and how to run backups and restores. You learn the basics of resolving appliance issues and maintaining the appliances. In addition, you learn about reconfiguring the appliances. You also learn how to configure and maintain CloudCatalyst 5240 and finally you learn how to deploy a Virtual Appliance.

Hands-On

This course includes practical hands-on lab exercises that enable you to test your new skills and begin to transfer them into your working environment. It also includes simulations, demonstrations and videos as part of the lab work.

Session Dates

On request. Please contact us
