Veritas InfoScale Availabbility 7.0 for Unix: Administration

CODE:	LENGTH:	PRICE:
VER_IAU_A	40 Hours (5 days)	kr40,000.00

Description

The Veritas InfoScale Availability 7.0 for Linux: Administration course is designed for the IT professional tasked with installing, configuring, and maintaining Veritas Cluster Server (VCS) clusters. This five day, instructor-led, hands-on class covers how to use InfoScale Availability to manage applications in a high availability environment. After gaining the fundamental skills that are needed to manage a highly available application in a cluster, you can deploy InfoScale Availability in a lab environment to implement a sample cluster design.
