Commvault Advanced Infrastructure Design

CODE:	LENGTH:	PRICE:
COM_AID	24 Hours (3 days)	kr24,000.00

Description

Elevate your knowledge of Commvault® software and maximize your organization's investment by learning and applying infrastructure design concepts in your environment. The Advanced Infrastructure Design course focuses on a deeper understanding of CommCell® design, storage configuration, and application protection in a virtual infrastructure. This course is structured as a design and implementation project where Commvault best practices are applied to prepare the participant to optimally plan for CommServe® placement, MediaAgent scaling, deduplication engine design, snapshot implementation, and Virtual Server Agent configuration from the ground up. Emphasis is placed on VM protection, particularly for protecting virtualized applications including Microsoft Exchange, SQL and SharePoint.

Prerequisites

It is required to have attended either:

- Version 10 Core Fundamentals and Implementation and Maintenance courses along with the V11 New Features course or
- Version 11 Core Fundamentals and Implementation and Maintenance course.

Programme

Module 1: CommCell® Environment Design CommCell design CommServe® design MediaAgent scaling Indexing scaling	Module 2: Storage Design	
	Storage infrastructure design	Module 3: Virtualization
	GridStor® technology	Virtualization primer
	SAN Data Server	Virtual Server Agent backup process
	Cloud computing and storage	Virtual Server Agent roles
Module 4: IntelliSnap® Technology IntelliSnap technology overview Hardware snapshot methods IntelliSnap for VSA IntelliSnap configuration	Deduplication design	Transport modes
	Storage Policy design	Virtual Server Agent configuration
	Module 5: Application Protection	
	Application protection overview	
	Agent based protection	
Module 6: Performance Performance overview Meeting backup windows Meeting media management requirements Meeting restore requirements Assessing data protection methods Assessing Commvault® product features Assessing Commvault software options and configurations	VSA application aware backup	
	IntelliSnap for VSA	
	Additional application protection methods
