Commvault Workflow Fundamentals

CODE:	LENGTH:	PRICE:
COM_WF	16 Hours (2 days)	kr18,000.00

Description

This 2-day Virtual Instructor-Led training is designed to provide a basic understanding of the Simpana® Workflow engine. This course introduces concepts including common workflow activities, user interactions, data flow and variables, using Qcommands, error checking, and using XML input files. Upon completion of this course the learner will be able to construct basic workflows to control and validate job activities, modify client entity settings, and log events in the event viewer and through Email.
