OnCommand Insight: Business Insights

CODE:	LENGTH:	PRICE:
NEP_OCI-BI	16 Hours (2 days)	kr19,300.00

Description

This course is intended to communicate the important features of infrastructure management reporting enabled by the OnCommand Insight reporting capabilities.

This course is primarily intended to convey how OnCommand Insight aids in not only the day-to-day operational reporting requirements through the use of the Insight Web user interface and queries and dashboards but also the more business orientated reporting requirements using the OnCommand Insight Data Warehouse and report authoring tools such as IBM Cognos Workspace Advanced.
