RHCSA Rapid Track course with RHCSA exam

CODE:	LENGTH:	PRICE:
REH_RH200	40 Hours (5 days)	Request Price

Description

The RHCSA Rapid Track course with exam (RH200) is designed for students who already have significant experience with Linux® administration. This offering combines Red Hat System Administration I (RH124) and Red Hat System Administration II (RH134) and includes the Red Hat Certified System Administrator (RHCSA) exam (EX200), allowing you to review and validate the tasks at an accelerated pace.
This course is delivered as an on-site class, as online/video training or by virtual classroom.

Audience

This offering is geared toward Windows system administrators, network administrators, and other system administrators who are interested in supplementing current skills or backstopping other team members, in addition to Linux system administrators who are responsible for these tasks:

• Configuring, installing, upgrading, and maintaining Linux systems using established standards and procedures
• Providing operational support
• Managing systems for monitoring system performance and availability
• Writing and deploying scripts for task automation and system administration

Prerequisites

You will be expected to already understand fundamental Linux computing concepts and be ready to practice the Red Hat Enterprise Linux methods for performing system administration tasks. Significant field experience working with Linux as a system administrator is recommended.
If you do not have experience with fundamental Linux computer concepts, we advise you to start with the Red Hat System Administration I (RH124) course instead.

Programme

• Package management with new repository structure and appstream modules
• Create storage devices, volumes, and file systems, including Stratis storage management
• Configure network services and security
• Manage processes, scheduling, and tuning
• Manage users, groups, and authentication
• Perform server management with the Cockpit web management utility
• Troubleshoot and obtain support
