IBM Z System Automation 4.3 Operations

Kod:	Czas trwania:	Cena netto:
SM929G	28 Hours (3.5 days)	zł8,600.00

Description

This course introduces and explains the IBM Z System Automation (SA for z/OS) commands that are used for system operations. In this course, the System Automation Manager and Automation Agent run in a z/OS 2.4 environment. The automation platform, IBM Z Netview is at version 6 release 4 and IBM Z System Automation is at version 4 release 3. The course uses several automation scenarios in single and multisystem configurations to demonstrate the concepts that are taught in the lessons. This training class is delivered in an environment with multiple opportunities for hands-on lab exercises.

Cel szkolenia

When you complete this course, you can use IBM Z System Automation 4.3 to perform the following tasks:

- Start and stop automated resources
- Monitor and control automated resources
- IPL and shut down systems and an SAplex

Uczestnicy

Users of IBM Z System Automation, especially operators, administrators, and system programmers.
