## Description

The Symantec Web Isolation Planning, Implementation, and Administration R2 course provides a detailed introduction to Symantec's two cloud-based isolation services: High Risk Isolation (HRI) and the Web Isolation dedicated tenant. The course includes implementation of the key protection scenarios with both Web Security Service and the ProxySG, as well as a description of the functions available in the Web Isolation management console.

## Cel szkolenia

By the completion of this course, you will be able to:

- Describe the major Web Isolation functions and capabilities
- Write policies to selectively isolate risky and uncategorized websites, allow privileged users greater access, and defend against phishing and ransomware attacks
- View reports and monitor solution performance

## Wymagania wstępne

- Basic understanding of networking concepts
- Basic understanding of network security concepts
- Basic understanding of the use of proxy servers

## Program szkolenia
