FURTIFIET FCP - FortiSOAR Administrator

Kod: Czas trwania: Cena netto:

FNT FT-FSR-ADM 16 Hours (2 days) Request Price

Description

In this course, you will learn about FortiSOAR architecture, and how to deploy, configure, manage, operate, and monitor FortiSOAR in a SoC environment. You will learn about various system customization options, HA deployment, security management using role-based access control (RBAC), and various system monitoring tools. Product Versions:

• FortiSOAR 7.3.0

Cel szkolenia

After completing this course, you should be able to:

- · Identify challenges of security teams, and assist security teams with SOAR best practices
- · Identify the role of SOAR in assisting security teams
- Describe the basics of SOAR technology
- Manage licenses
- · Deploy and manage a FortiSOAR VM
- · Configure teams, roles, and users
- Configure authentication
- Schedule the purging of audit logs and executed playbook logs
- · Configure playbook recovery
- Configure environment variables
- · Configure company branding
- · Configure system fixtures
- Configure the recycle bin
- Monitor and manage audit logs
- Use the configuration manager
- Monitor system resources
- Deploy, configure, manage, and troubleshoot a FortiSOAR high availability cluster
- Identify the types of logs used for troubleshooting
- · Collect log files used for troubleshooting
- Troubleshoot key services and processes on FortiSOAR

Uczestnicy

This course is intended for cybersecurity professionals responsible for planning, deploying, configuring, and managing FortiSOAR deployments in a SOC environment.

Wymagania wstępne

You must have an understanding of the topics covered in the following course, or have equivalent experience:

- You must have an understanding of the topics covered in FCP FortiGate Security, or have equivalent experience.
- Familiarity with SOC technologies and processes is recommended.

System Requirements

If you take the online format of this class, you must use a computer that has the following:

- A high-speed Internet connection
- An up-to-date web browser
- A PDF viewer
- Speakers or headphones
- One of the following:
- HTML 5 support
- · An up-to-date Java Runtime Environment (JRE) with Java Plugin enabled on your web browser

You should use a wired Ethernet connection, not a WiFi connection. Firewalls, including Windows Firewall or FortiClient, must allow connections to the online labs.

Program szkolenia

- 1. Introduction to FortiSOAR
- 2. Device Management
- 3. High Availability
- 4. System Configuration
- 5. Searching and Upgrading
- 6. System Monitoring and Troubleshooting

Test and Certification

Exam

This course prepares you for the Fortinet NSE 6 - FortiSOAR 7.3 Administrator exam. By passing this exam, you will be awarded the associated exam badge.

Certification: This exam is part of the FCP Security Operations certification track.
