CTX-314 Citrix Platform Enterprise Deployment, Monitoring & Troubleshooting Combo

Kod:	Czas trwania:	Cena netto:
CTX_CTX-314	40 Hours (5 days)	zł10,900.00

Description

Training Development

Designed for experienced IT professionals, this course expands the foundational administrative skills by introducing scalability, redundancy, and advanced configurations. You will learn to build and combine App Layers to optimize management of your app and desktop images. You will learn how to implement Workspace Environment Management to improve logon times, centralize user settings management, and optimize the performance of machines. Additionally, in this course you will learn how to use tools for monitoring and troubleshooting a CVAD environment. You'll learn advanced use-cases for Citrix Direct and learn about uberAgent and ow to install, manage and configure Splunk, ESA and UXM dashboards and the uberAgent plug-in. You'll also understand core-architecture and traffic flows as they relate to common breakpoints and the tools to identify issues.
Product Versions Covered: Citrix Virtual Apps and Desktops 2507 LTSR, App Layering 2507, and WEM 2511
