Description

This course teaches analysts and engineers how to define, elaborate, organise, and manage textual and graphical requirements and requirements-related information. This course specifically uses Global Configurations and project areas with Configuration Management (CM) enabled. Modifications are performed using Change Sets

Cel szkolenia

- Explain the Configuration Management option
- Understand and use Global Configurations
- Create Change Sets, associate them with work items, and deliver changes to a requirements stream
- View and work with requirements artifacts in a collaborative context
- Capture, define and elaborate on requirements, including textual and graphical artifacts.
- Organize artifacts based on artifact context
- Understand, view and create traceability relationships

Uczestnicy

- Business Analysts
- Systems Engineers
- Software Engineers
- Requirements Engineers
- Requirements Managers
- Requirements Team Leaders

Program szkolenia

1. About this course
2. Key concepts - Jazz architecture and Global Configurations
3. Product overview
4. Displaying artifacts
5. Defining artifacts and using Change Sets
6. Organizing artifacts
7. Working with modules
8. Importing
9. Viewing traceability
10. Creating traceability
