TRIRIGA Reservation Management

Kod: **Czas trwania:** **Cena netto:**

ODC8085G 16 Hours zł4,950.00

Description

The course is designed to teach students how to customize, operate, administer, and monitor IBM TRIRIGA Reservation Management process flow and Reservation roles.

Cel szkolenia

Upon completion of this course students should be able to:

- Understand the Reservation Management application in IBM TRIRIGA
- Setup the application for Reservation Management
- Manage reservable spaces, assets, and equipment
- Book a room or equipment
- Manage different type of reservation requests
- Understand the different user roles needed for Reservation Management
- Cancel reservations8. Understand how to integrate IBM TRIRIGA with Microsoft Exchange for Reservation Management

Uczestnicy

Space planners, facility and site coordinators, reservation managers, operations managers

Program szkolenia

1. Overview of Reservation Management: This unit introduces the IBM TRIRIGA Reservation Management process flow and Reservation roles.
2. Reservation Management Settings: This unit illustrates the settings required in IBM TRIRIGA for Reservation Management, before initiating the reservation process.
3. Reservable Record Setup: This unit illustrates the setup of the reservable records such as conference room, workspace, assets, and equipment. The setup will be performed in the Reserve tab of the Reservable Records.
4. Creating a Reservation: This unit introduces the procedure for reserving conference rooms, workspace, performing location requests, and using the Outlook add-in tool.
5. Reservation in Perceptive App: This unit introduces the Reservation Perceptive Application and illustrates how to use it to reserve conference rooms and workspaces. It will also discuss other functionalities such as check-in/check-out and cancel a reservation.
6. Reservation with Exchange: This unit talks about integrating IBM TRIRIGA with Microsoft Exchange.
