Description

In this course, you will learn how to use the FortiClient EMS features, provision FortiClient endpoints, integrate the FortiClient EMS Security Fabric, and deploy and configure the zero-trust network access (ZTNA) agent and endpoint security features. Learning these product fundamentals provide you with a solid understanding of how to deploy, manage, and maintain endpoint security using FortiClient EMS.

Product Versions

- FortiClient EMS 7.2.0
- FortiClient 7.2.0
- FortiOS 7.2.4

Objectives

After completing this course, you will be able to:

- Understand the purpose of FortiClient EMS and identify FortiClient EMS components
- Understand FortiClient EMS administration and database management
- Identify and explore FortiClient editions
- Understand FortiClient installation
- Identify FortiClient features and settings
- Provision and deploy FortiClient using FortiClient EMS
- Explore different deployment methods and types
- Understand and configure endpoint policies and profiles
- Configure endpoint profile references
- Understand the use of the ZTNA
- Configure and deploy FortiClient ZTNA solution
- Understand compliance verification rules and manage tags
- Understand FortiClient Cloud requirements and administration
- Understand FortiCloud endpoint deployment and management
- Explore diagnostic tools and troubleshooting of FortiClient and FortiClient EMS

Audience

IT and security professionals involved in the management, configuration, and administration of FortiClient EMS endpoints used to secure devices for their organizations should attend this course.

Participants should have a thorough understanding of endpoint solutions.

Prerequisites

A basic understanding of endpoint protection solutions. **System Requirements**

If you take the online format of this class, you must use a computer that has the following:

- A high-speed Internet connection
- An up-to-date web browser
- A PDF viewer
- Speakers or headphones
- One of the following:
 - HTML 5 support;

An up-to-date Java Runtime Environment (JRE) with Java plugin enabled in your web browser

You should use a wired Ethernet connection, not a Wi-Fi connection. Firewalls, including Windows Firewall or FortiClient, must allow connections to the online labs.

Programme

1. Introduction to FortiClient and FortiClient EMS
2. Installation and Licensing
3. FortiClient EMS configuration and Administration
4. FortiClient Deployment
5. FortiClient Provisioning Using FortiClient EMS
6. FortiClient Endpoint Profiles
7. ZTNA
8. ZTNA Configuration
9. FortiClient Cloud
10. Diagnostics and Troubleshooting

Test and Certification

Exam:
This course prepares you for the FCP FortiClient EMS 7.2 Administrator exam. By passing this exam, you will be awarded the associated exam badge.

Certification: This exam is part of the FCP Network Security certification track.
