# Executive Introduction to RSAIF

**CODE:**      **LENGTH:**      **PRICE:**

AIC\_RSAIF      4 Hours      kr1,950.00

## Description

### **Executive Introduction to RSAIF: A Primer on Responsible and Secure AI**

Gain essential knowledge on AI governance, security, and compliance with RSAIF's framework. Equip executives with the tools to lead responsible, transparent, and secure AI initiatives.

## Objectives

**Executive-Level AI Oversight:** Gain a strategic understanding of the executive role in leading AI initiatives, ensuring alignment with ethical standards and global governance frameworks.

**Building Ethical AI Cultures:** Learn how to foster a culture of responsibility and ethics within AI teams, ensuring AI systems are developed with transparency and fairness from the top down.

**Regulatory Compliance Leadership:** Understand the impact of international regulations like GDPR and the EU AI Act on AI projects, and how executives can ensure compliance across the organization.

**Strategic Risk Mitigation:** Develop the skills to identify and manage organizational AI risks, ensuring AI systems are secure, ethical, and aligned with regulatory requirements.

**Driving Responsible AI Innovation:** Learn how to lead AI innovation that is both impactful and responsible, ensuring that AI technologies contribute positively to society while mitigating potential harms.

## Audience

**C-suite Executives:** For CEOs, CTOs, and CIOs leading AI initiatives with a focus on security, compliance, and ethical governance

**Policy Makers:** Ideal for officials shaping AI policies and ensuring regulatory compliance with standards like GDPR and the EU AI Act.

**Risk and Compliance Managers:** Perfect for professionals managing AI risks and ensuring systems meet compliance and ethical standards.

**IT Security Leaders:** Targeted at CISOs overseeing AI system security and protecting against adversarial threats and data breaches.

**AI Project Managers:** Designed for managers leading AI projects, ensuring governance, risk management, and ethical oversight.

## Prerequisites

None required, but a basic understanding of AI governance and security is recommended.
