AB-730T00: Transform business workflows with generative AI

CODE:	LENGTH:	PRICE:
MCS_AB-730T00	8 Hours (1 day)	Request Price

Description

In AB-730T00: Transform business workflows with generative AI, learners will discover how to apply generative AI to streamline daily tasks, enhance decision-making, and drive meaningful business outcomes. Learners will understand how to use Microsoft 365 Copilot and its functionalities to improve their productivity. The course focuses on real-world use cases—no coding required—making it ideal for those who want to confidently integrate AI into their work.

Audience

AB-730T00: Transform business workflows with generative AI is designed for professionals from a wide range of business functions, such as marketing, sales, operations, product management, customer success, human resources, and finance. The course is suitable for those looking to enhance their productivity, streamline workflows, and confidently demonstrate AI skills in a modern workplace.

Prerequisites

Students should have basic functional experience with Microsoft 365 services.
