# HUAWEI HCIA-Storage- BSSN Building the Structure of Storage Network Training

CODE:	LENGTH:	PRICE:
HUA_HCIA	40 Hours (5 days)	kr34,500.00

## Description

## Programme

### Course Content

- Storage cutting-edge technology and trends
- Storage definition and development history
- Storage technology evolution
- Storage frontier technology
- Storage products and solutions

### Storage application technologies in AI, Big data and cloud computing

- ICT technology development trend
- Cloud computing storage application technology
- AI and big data storage application technology

### Storage ecosystem introduction

- CT architecture
- Storage system structure
- Storage System Architecture
- Storage components
- Huawei storage product introduction

### Introduction to common storage protocols

- SAN storage protocols: SCSI, iSCSI, FC, SAS, IB, FCOE, etc.
- NAS Storage Protocol: CIFS, NFS, FTP, HTTP, etc.

### Storage networking technology

- DAS networking technology and application
- SAN networking technology and application
- NAS networking technology and application

### Storage Reliability Technology

- RAID protection technology
- Host multi-path technology
- Hard disk reliability technology

### Common storage advanced technologies

- Thin provisioning technology (SmartThin)
- Storage Tier Technology (SmartTier)
- Quality of Service Control Technology (SmartQoS)
- Cache partitioning technology (SmartPartition)
- Snapshot Technology (HyperSnap)
- File System Quota Management Technology (SmartQuota)

## **Business continuity solution**

- Business Continuity Plan Overview
- Backup scheme technologies and applications
- Disaster Recovery Solution Technology and Application

## **Storage system routine maintenance and troubleshooting in data center**

- Data center basics
- Data center storage system management
- Daily maintenance of data center storage

## **Session Dates**
