IBM Transformation Advisor with OpenShift on Power

CODE: **LENGTH:** **PRICE:**

QZC44DG 4 Hours Free

Description

This course presents the IBM Transformation Advisor on OpenShift on Power Systems, which helps administrators and developers to modernize and migrate their applications from on-premises environments to the cloud.

Every application is different in terms of structure, configuration, and goals. It typically requires an in-depth analysis of the applications. IBM Transformation Advisor assists you in this process by discovering, assess, and plan for migration of these applications to the new environment.

Objectives

After completing this course, you should be able to answer the following questions:

- What is Transformation Advisor, why use it, and when using it?
- What are the features of Transformation Advisor, and how to use it?
- Where to deploy Transformation Advisor?
