SPL_ARCH-FT	40 Hours (5 days)	kr42,000.00

Description

This course focuses on large enterprise deployments.
Students will learn :
- steps and best practices for planning, data collection and sizing for a distributed deployment.
- topics and techniques for troubleshooting a standard Splunk distributed deployment using the tools available on Splunk Enterprise.
- troubleshooting experience before attending more advanced courses. You will debug a distributed Splunk Enterprise environment using the live system. case logs.
- the fundamental knowledge of deploying and managing Splunk Enterprise in a clustered environment. It covers installation, configuration, management, and monitoring of Splunk clusters.
While Splunk Clusters are supported in Windows environments, the class lab environment is running Linux instances only.
ONLY for customers with Splunk on-prem
