Description

COMMVAULT PROFESSIONAL

DESCRIPTION
Learn essential skills for installing and configuring CommvaultÂ® software to protect data in virtual and physical infrastructures. This 5-day course provides all the information needed to get your Commvault environment up and running including: CommServe server configuration, MediaAgent design, agent deployment, storage configuration, and data security. The class is balanced between technical discussions using detailed diagrams and white board sessions, and hands on labs using Education Services CVLab environment focusing on both the Admin Console and CommCellÂ® Console.

Prerequisites
It is recommended that you watch the Welcome to CommvaultÂ® e-Learning course. This course is included at no additional cost, as a part of the Commvault Professionals registration, and is recommended to be completed prior to attending this course.

WHO SHOULD ATTEND THIS COURSE?
This course is intended for personnel responsible for day-to-day administration and management of Commvault software.

CERTIFICATION
Completion of this course helps you prepare for the Commvault Certified Professional Certification. The Commvault Professional exam is included free of charge as a part of the Commvault Professional instructor and virtual instructor-led course registration.

Commvault Certified Professional Exam (V11)
A Commvault Certified Professional certification validates the skills required to install, configure, and administer a CommCellÂ® environment using both the CommCell Console and Admin Console. It proves a professional level skillset in the following areas:
CommCell Administration â€“ user and group security, configuring administrative tasks, conducting data protection and recovery operations, and CommCell monitoring.
Storage Administration â€“ deduplication configuration, disk library settings, tape library settings, media management handling, and snapshot administration.
CommCell Implementation â€“ CommServeÂ® server design, MediaAgent design and placement, indexing settings, client and agent deployment, and CommCell maintenance.
