IBM Cognos Analytics: Enterprise Administration (V11.2)

CODE:	LENGTH:	PRICE:
J4355G	16 Hours	£790.00

Description

This offering covers the fundamental concepts of installing and configuring IBM Cognos Analytics, and administering servers and content, in a distributed environment. In the course, participants will identify requirements for the installation and configuration of a distributed IBM Cognos Analytics software environment, implement security in the environment, and manage the server components. Students will also monitor and schedule tasks, create data sources, and manage and deploy content in the portal and IBM Cognos Administration.

Objectives

Introduction to IBM Cognos Analytics administrationIBM Cognos Analytics componentsAdministration workflow
IBM Cognos AdministrationIBM Cognos ConfigurationIdentify IBM Cognos Analytics architecture
Features of the IBM Cognos Analytics architectureExamine the multi-tiered architecture, and identify logging types and files
Examine IBM Cognos Analytics servletsPerformance and installation planningBalance the request load
Configure IBM Cognos AnalyticsSecure the IBM Cognos Analytics environmentIdentify the IBM Cognos Analytics security model
Define authentication in IBM Cognos AnalyticsDefine authorization in IBM Cognos AnalyticsIdentify security policies
Secure the IBM Cognos Analytics environmentAdminister the IBM Cognos Analytics server environment
Administer IBM Cognos Analytics serversMonitor system performanceManage dispatchers and services
Tune system performance, and troubleshoot the serverAudit loggingDynamic cube data source administration workflow
Manage run activitiesView current, past, and upcoming activitiesManage schedulesManage content in IBM Cognos Administration
Data sources and packagesManage visualizations in the libraryDeploymentOther content management tasks
Examine departmental administration capabilitiesCreate and manage team membersManage activities
Create and manage content and dataManage system settingsManage Themes, Extensions, and Views
Share services with multiple tenants

Audience

Administrators

Prerequisites

- Basic knowledge of Web application server architectures
- Basic knowledge of security systems administration
- Experience using basic Windows functionality
- Knowledge of your business requirements
