# IBM Cognos Analytics: Enterprise Administration (V11.2)

CODE:	LENGTH:	PRICE:
B6355G	16 Hours (2 dage)	kr 11,640.00

## Description

This offering covers the fundamental concepts of installing and configuring IBM Cognos Analytics, and administering servers and content, in a distributed environment. In the course, participants will identify requirements for the installation and configuration of a distributed IBM Cognos Analytics software environment, implement security in the environment, and manage the server components. Students will also monitor and schedule tasks, create data sources, and manage and deploy content in the portal and IBM Cognos Administration.

## Objectives

Introduction to IBM Cognos Analytics administrationIBM Cognos Analytics componentsAdministration workflow  
IBM Cognos AdministrationIBM Cognos ConfigurationIdentify IBM Cognos Analytics architecture  
Features of the IBM Cognos Analytics architectureExamine the multi-tiered architecture, and identify logging types and files  
Examine IBM Cognos Analytics servletsPerformance and installation planningBalance the request load  
Configure IBM Cognos AnalyticsSecure the IBM Cognos Analytics environmentIdentify the IBM Cognos Analytics security model  
Define authentication in IBM Cognos AnalyticsDefine authorization in IBM Cognos AnalyticsIdentify security policies  
Secure the IBM Cognos Analytics environmentAdminister the IBM Cognos Analytics server environment  
Administer IBM Cognos Analytics serversMonitor system performanceManage dispatchers and services  
Tune system performance, and troubleshoot the serverAudit loggingDynamic cube data source administration workflow  
Manage run activitiesView current, past, and upcoming activitiesManage schedulesManage content in IBM Cognos Administration  
Data sources and packagesManage visualizations in the libraryDeploymentOther content management tasks  
Examine departmental administration capabilitiesCreate and manage team membersManage activities  
Create and manage content and dataManage system settingsManage Themes, Extensions, and Views  
Share services with multiple tenants

## Audience

Administrators

## Prerequisites

- Basic knowledge of Web application server architectures
- Basic knowledge of security systems administration
- Experience using basic Windows functionality
- Knowledge of your business requirements
