StorageGRID Administration

CODE:	LENGTH:	PRICE:
NEP_SG-WS-ADM	24 Hours (3 dage)	kr 20,850.00

Description

This course is a comprehensive analysis of NetApp® StorageGRID® administration. You learn how to configure, monitor, maintain, and expand a StorageGRID system. The course outlines the new features and enhancements in StorageGRID 11.6. The course materials include a guide for hands-on exercises that you perform in a lab environment. This course also builds on the concepts that you learned in StorageGRID Fundamentals and is complementary to Installing StorageGRID.

Objectives

This course focuses on enabling you to do the following:

- Use the StorageGRID Grid Manager to monitor and manage a StorageGRID object-based storage solution
- Create and manage storage tenant accounts, groups, and users
- Configure information lifecycle management (ILM) rules and policies
- Control access to the StorageGRID system and implement service levels
- Manage Simple Storage Service (S3) buckets and objects
- Monitor StorageGRID system activity
- Configure and manage email notifications and custom alerts
- Integrate the StorageGRID solution into your data fabric

Audience

- Storage Administrators
- Professional Services Personnel
- Support Services Personnel

Prerequisites

The Web Based Training course StorageGRID Webscale Fundamentals is recommended. This is free of charge and provided by NetApp.

For further support, please complete the information on the link below and a member of the Arrow NetApp team will be in contact to support you.

Programme

Module 0: Welcome

- About the StorageGRID curriculum
- About this course
- Course agenda

Module 1: StorageGRID Components and Services

- StorageGRID components
- Node service workflows

Module 2: StorageGRID management

- Grid manager
- StorageGRID Configuration options
- StorageGRID Administrators
- Securing Access to StorageGRID
- StorageGRID Management API

Module 3: Storage Tenant Administration

- Tenant Accounts
- Tenant Manager
- Tenant Access Control
- StorageGRID tenant API

Module 4: Information Lifecycle Management

- ILM Policies and Rules
- Storage pools, Storage Grades and Regions
- Configuring ILM policies

Module 5: Managing Client Connections

- VLAN Interfaces
- High-availability groups
- Load balancer endpoints
- Traffic classification

Module 6: S3 bucket administration

- Virtual hosted-style identifiers
- Bucket access control
- S3 bucket configuration options
- Client stored object options
- Platform services

Module 7: Monitoring the StorageGRID system

- Alerts
- Audit log
- Reporting

Module 8: StorageGRID maintenance

- StorageGRID AutoSupport
- Managing StorageGRID services
- Maintenance procedures
- StorageGRID software upgrades

Module 9: Integrating a StorageGRID system

- ONTAP FabricPool
- ONTAP backup to Cloud
- SolidFire backup to cloud
- NetApp Cloud backup service
- NetApp Cloud Sync service

Test and Certification

This course is part of the NetApp Certified Hybrid Cloud Administrator certification programme

Session Dates

Date	Location	Time Zone	Language	Type	Guaranteed	PRICE
27 Mar 2023	Virtual Classroom (GMT / UTC)	BST	English	Instructor Led Online		kr 20,850.00
17 Apr 2023	Virtual Classroom (GMT / UTC)	BST	English	Instructor Led Online		kr 20,850.00
22 May 2023	Virtual Classroom (GMT / UTC)	BST	English	Instructor Led Online		kr 20,850.00
05 Jun 2023	Virtual Classroom (GMT / UTC)	BST	English	Instructor Led Online		kr 20,850.00
24 Jul 2023	Virtual Classroom (GMT / UTC)	BST	English	Instructor Led Online		kr 20,850.00
