# IBM OpenPages: Role Based Security (v7.3) eLearning

<b>CODE:</b>	<b>DURÉE:</b>	<b>PRIX H.T.:</b>
10266G	8 Hours	€150.00

## Description

**Contains:** Instructional and interactive content, demonstrations and hand-on simulated exercises.

This course teaches IBM OpenPages GRC Platform administrators about role-based security. They will learn best practices in creating user accounts, role templates, and assigning users to security context points. They will step through adding a user, role template, and testing a user's assigned security. They will also learn about organizational groups through the application of business use cases.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. <http://www.ibm.com/training/terms>
