Implementing NetApp HCI

CODE:	LENGTH:	PRICE:
NEP_HCI-I	16 Hours (2 days)	£1,650.00

Description

This course uses classroom lecture with hands-on activities to prepare you to install and configure a NetApp HCI cluster. You explore the deployment process from the preparation of hardware components to a fully functioning NetApp HCI environment. You learn the hardware, networking, and cabling requirements for the installation of NetApp HCI. Finally, you become familiar with the vCenter plug-in for NetApp Element software.

Objectives

This course focuses on enabling you to do the following:

- Evaluate a customer site for successful deployment
- Prepare and configure a customer's network for NetApp HCI installation
- Configure the Mellanox SN2010 switch for a NetApp HCI environment
- Deploy storage and compute nodes with the NetApp Deployment Engine (NDE)
- Deploy NetApp HCI into an existing vCenter environment
- Scale storage and compute capacity by expanding a NetApp HCI cluster

Prerequisites

- NetApp HCI Fundamentals
- Element Fundamentals

Session Dates

On request. Please [Contact Us](#)
