IBM Integrated Analytics System (IIAS) for Administrators V1.0

CODE:	LENGTH:	PRICE:
1W730G	8 Hours	€245.00

Description

This course provides participants with advanced administration skills for IBM Integrated Analytics System. This course is designed to give participants an overview of the IIAS system, show how to administer the system using the console and command line interface, and extend the appliance. Participants will also monitor the system and performance in addition to managing users and security.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. <http://www.ibm.com/training/terms>
