IBM FileNet Content Manager 5.2.1 - Work with Object Metadata

CÓDIGO:	DURACIÓN:	Precio:
F282G	8 Hours (1 dia)	€650.00

Description

Learn how to create document and folder classes and properties, and how to create event subscriptions on those classes to run automated actions.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. <http://www.ibm.com/training/terms>

Objetivos

Upon completion of this course, participants will be able to:

- Create a document class.
- Create a folder class.
- Create property templates.
- Create choice lists.
- Modify classes, properties, choice lists.
- Create an event subscription with an action.
- Update an existing event subscription with a new code module.
- Use a workflow subscription.

Público

An IBM FileNet Content Manager application builder is responsible for developing a IBM FileNet Content Manager application in a development environment.

Requisitos Previos

- Basic computer skills: Able to use computers, authenticate using a name and password, follow hyperlinks, and use common user interface elements such as buttons, menus, and tabs
- Recommended prerequisite courses:
 - IBM Content Navigator 2.0.3.6 Introduction (F270G)
 - IBM FileNet Content Manager 5.2.1: Introduction (F280G)

Programa

Create document and folder classes

- What is a Class?
- What are Document Objects?
- Folders
- Containment Concepts
- Class Inheritance
- What is a Property?
- What is a Property Template?

- What is a Property Definition?
- What are Choice Lists?
