ONTAP Cluster Installation Workshop (24 Training Units)

CODE:	LENGTH:	PRICE:
NEP_OT-CLU-I-WS	2 days	£2,304.00

Description

This advanced installation course prepares you to deliver ONTAP® system installation services in a way that meets NetApp® quality standards and uses NetApp best practices. With your laptop and the appropriate tools, you practice all installation tasks and set up NetApp storage controllers and shelves in a clustered configuration. You learn how to set up and test access to the system and the AutoSupport connection, and you learn how to conduct a customer handoff briefing.

Objectives

- This course focuses on enabling you to do the following:
- Complete pre-installation tasks
 - List the cluster cabling options and restrictions
 - Install and update cluster and management switches
 - Install, configure, and test a two-node switched cluster
 - Provide a customer with the appropriate information when you are handing off a system

Audience

NetApp and Partner installation engineers

Prerequisites

- ONTAP Fundamentals (ILT)
- ONTAP Administration (ILT)
- Universal NetApp FAS Installation (WBT)
- NetApp Installation Standard (WBT)

Options

24 Training Units
