IBM Algorithmics Integrating Algo Risk Application

CÓDIGO:	DURACIÓN:	Precio:
G1004G	16 Hours (2 días)	€1,100.00

Description

***** For inquiries and scheduling for this course,
please contact <u>wfssedu@us.ibm.com</u> *****   This is an IBM ISDR course.
This is a Technical class that introduces attendees to Algo Risk Application, the components and related services, architecture, and troubleshooting techniques in order to be able to manage the product on a day to day basis.
To provide participant with:

- A technical overview of Algo Risk Application
- Understanding Configuration files
- Starting and stopping services
- Troubleshooting services
- Log files, directory structures and best practices
- Linking cubes and data files
- Market configuration specifics, Basel Management Reporting configuration specifics
- Authentication modes, ASEC authentication (Basel)

Upon completion of this class attendees will be able to manage ARA, its services, log files and components.

Objetivos

*** For inquiries and scheduling for this course,
Please refer to Course Overview.**please contact <u>wfssedu@us.ibm.com</u> *****   This is an IBM ISDR course.

Público

This intermediate course is designed for technical support, operators and Integration Engineers who need a good understanding of ARA.

Requisitos Previos

You should have Knowledge of windows, Unix **and** Linux at the command prompt, familiar with systems support **and** infrastructure

Programa

The two-day course is delivered through a number of mediums, including product demonstrations, instructor-led exercises and self-paced hands-on practice.
Day 1:
An end to end overview of the standard architecture of ARA and the processes that create the data it captures for analysis. focussed on components from a technical and system management point of view with functional overviews of component usage:

- Market Risk Dataflow & Regulatory Capital Data flow
- ARA GUI Functional Overview and Navigation
- Installing ARA
  - Workshop 1

- Configuration files, flavours and directory structures
  - Workshop 2

- Authentication, Users and Administration

- Workshop 3
- Internationalization
    - Workshop 4
- Configuring ARA for AlgoDataGrid
    - Workshop 5

Day 2: Changing Config files, Batch and Upgrades

- Adding new contexts (MtF) and data file links
    - Workshop 1
- Batch and iaracli commands
    - Workshop 2
- Configuring ara.properties
    - Workshop 3
- Upgrading ARA
    - Workshop 4
- Troubleshooting ARA
    - Workshop 5

Fechas Programadas

A petición. Gracias por contactarnos.
