Introduction to IBM Cúram Social Program Management 7.X: Functional Overview

CODE:	LENGTH:	PRICE:
9D75G	6 Hours	\$300.00

Description

IBM Cúram offers products that SPM agencies need to provide government-funded social, health, and other services to citizens. The course provides a high-level summary of the IBM Cúram SPM Platform and the IBM Cúram Application Modules. The course describes the main components of the Cúram SPM Platform. It also describes the respective functions of the Cúram Application Modules. The course explains the SPM Platform and Application Modules by describing their respective functions in the context of the citizen and agency needs that they address. This web-based course has no virtual lab associated with it. If you are enrolling in a Self Paced Virtual Classroom or Web-Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. <http://www.ibm.com/training/terms>

Objectives

After completing this course, students should be able to:

- Describe the IBM Cúram approach to SPM.
- Describe the participant management and case management functionality that the IBM SPM Platform provides.
