GDPS/Global Mirror Implementation Workshop

CÓDIGO:	DURACIÓN:	Precio:
GDPS3G	40 Hours (5 días)	A consultar

Description

This workshop is intended for IBM technical professionals (IT specialists, IT architects, technical sales specialist, etc) who will be involved in implementing or architecting a GDPS/Global Mirror solution (XRC is also known as z/OS Global Mirror). Project managers who will manage a GDPS/Global Mirror implementation project will also benefit. The workshop is also intended for technical customer staff (systems programmers, storage specialists, automation specialists, operations/production control specialists, etc) who are new to GDPS and are looking to develop GDPS skills because their job directly or indirectly involves GDPS. Note that customer attendance is restricted to customers with a valid GDPS/Global Mirror license.

Objetivos

Please refer to Course Overview for description information.

Público

This basic workshop is restricted to employees of enterprises with an existing, valid GDPS/GM license.
