IBM Platform Symphony Basic Administration for Linux

CÓDIGO:	DURACIÓN:	Precio:
H050G	3 días	€1,375.00

Description

This course teaches IBM Platform Symphony version 7.1.

The course is designed to give IT system administration and application support teams the required knowledge to deploy, use, and maintain the Symphony clusters in their working environment. The attendees will gain a strong understanding of Platform Symphony architecture and resource workload management concepts, and learn basic cluster configuration and administration skills.

Objetivos

- Present basic concepts of Platform Symphony
- Install Platform Symphony on Linux
- Describe Platform Symphony web GUI
- Describe EGO and its components
- Plan resources with EGO
- Administrate Platform Symphony with EGO
- Perform EGO slot allocation tuning
- Manage SOA workload with SOAM
- Deploy and manage Platform Symphony application
- Schedule jobs in Platform Symphony
- Perform Platform Symphony basic administration tasks
- Perform Platform Symphony scheduling
- Create reports with Platform Symphony reporting tool
- Create Platform Symphony events
- Troubleshoot Platform Symphony
- Demonstrate Platform Symphony resilience

Público

This course is designed for system administration, grid and application support personnel who will be responsible for managing and utilizing Symphony grid. Application developers and end users can also benefit from this course.

Requisitos Previos

Attendees should be familiar with UNIX/Linux and/or Windows operating systems and have basic system administration experience.

Previous experience with grid computing technologies and solutions is beneficial but not required.

Programa

- Platform Symphony Introduction
- Platform Symphony installation
- Platform Symphony GUI orientation
- Platform Symphony 7.1 new features
- EGO overview
- EGO resource planning
- EGO resource allocation
- EGO administration

- SOA workload management with SOAM
- Platform Symphony admin advanced
- Platform Symphony admin application deployment management
- Platform Symphony scheduling
- Platform Symphony security
- Platform Symphony reporting
- Platform Symphony troubleshooting
- Platform Symphony resilience

Más información

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process: <http://w3.ibm.com/services/gbs/evita/BCSVTEnr1.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

The current GTP list price

The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.

Fechas Programadas

A petición. Gracias por [contactarnos](#).
