IBM Sterling Field Sales - Administer Sterling Field Sales

CODE:	DURÉE:	PRIX H.T.:
6T841G	8 Hours (1 day)	€700.00

Description

This 1-day instructor-led course provides you with an understanding of the configurations that need to be performed in IBM® Sterling Channel Applications Manager, IBM® Sterling Business Center and the IBM® Sterling Applications Manager for the IBM® Sterling Field Sales application. This course is primarily designed for administrators who need to administer the Sterling Field Sales application to meet their business requirements.

This course introduces you to the different Order Capture applications offered by IBM and then proceeds to focus on the backend configurations required to customize the Sterling Field Sales application. Through a combination of procedural information and exercises, you learn about topics such as how to configure the basic and advanced options in Sterling Channel Applications Manager.

Objectifs

- Describe different Order Capture Channels
- Describe Sterling Channel Applications Manager
- Configure Sterling Field Sales Basic and Advanced Rules using Sterling Channel Applications Manager
- Explain the business processes in Sterling Field Sales

Audience

This basic course is designed for administrator users who need to administer the Sterling Field Sales application.
