Commvault Professional V11 Bundle (Instructor Led) + Exam voucher (20 TU)

CODE:	LENGTH:	PRICE:
COM_P	40 Hours (5 days)	€3,600.00

Description

Commvault Professional V11

Learn essential skills for installing and configuring Commvault® software to protect data in virtual and physical infrastructures. This 5-day course provides all the information needed to get your Commvault environment up and running including: CommServe® server configuration, MediaAgent design, agent deployment, storage configuration, and data security. The class is balanced between technical discussions using detailed diagrams and white board sessions, and hands-on labs using Education Services CVLab environment focusing on both the Admin Console and the CommCell® Console.

Certification

Completion of this course helps you prepare for the **Commvault Certified Professional V11 Certification**. The **Commvault Certified Professional Exam (V11)** exam is included free of charge as a part of the **Commvault Certified Professional Exam (V11)** instructor and virtual instructor-led course registration.

Additional knowledge and e-learning products

If you need additional resources and knowledge consider to purchase all Commvault e-learning products as a one eLearning Package

1 year license - for a Single User EUR 3600 (20 TU)

1 year license - Multi User - Call or mail us for more information

Phone: +31 (0)6 4620 6409 Mail: jos.wolbers@arrow.com

Audience

This course is intended for personnel responsible for day-to-day administration and management of Commvault® software.

Prerequisites

It is recommended that you watch the Welcome to Commvault e-Learning course. This course is included at no additional cost, as a part of the Commvault Professionals registration, and is recommended to be completed prior to attending this course.

Programme

CommCell® Deployment	<ul style="list-style-type: none">• Next Generation Platform overview• Physical architecture• Logical architecture• Web console• Admin console• CommCell console• Commvault® component system requirements
Software Implementation	<ul style="list-style-type: none">• Downloading Commvault® software• CommServe® server installation and configuration• MediaAgent installation and configuration• Ransomware risk mitigation• Role based security

Disk, Deduplication, and Cloud	<ul style="list-style-type: none"> • Storage overview • Disk library design and configuration • Cloud library configuration • Deduplication overview concepts • Transactional deduplication database • Partitioned deduplication database • Data verification
Tape Libraries	<ul style="list-style-type: none"> • Tape library design and configuration • Tape media management
Storage Policies	<ul style="list-style-type: none"> • Storage policy overview • Storage policy configuration • Storage policy administration • Global secondary copies • Retention overview • Job based retention • Additional retention settings
Servers and Server Groups	<ul style="list-style-type: none"> • Server tree structure • Server administrative tasks using the CommCell® console • Admin console concepts • Commvault agents • Agent installation methods • Server groups
File Server Solution	<ul style="list-style-type: none"> • File server solution overview • Add a solution • Data protection plans • Subclients • Filtering
Protecting Virtual Environments	<ul style="list-style-type: none"> • Virtual protection overview • Transport modes • VSA filtering • VSA application aware backup • Adding a virtualization solution • Admin console VSA tasks • VSA backup options • VSA recovery methods
Snapshots and Block Level Backups	<ul style="list-style-type: none"> • Snapshot overview • IntelliSnap® technology • Block-level backups • Snapshot configuration • Managing snapshots
Job Management	<ul style="list-style-type: none"> • Data protection overview • Job initiation methods • DASH Full and DASH Copy jobs • Scheduling and schedule policies • Managing active jobs • Data recovery operations • Data encryption • Firewall configuration and network topologies
Maintenance and Tuning	<ul style="list-style-type: none"> • Monitoring resources • Alerts • Reports • CommCell® tools • Performance tuning

Test and Certification

Commvault Certified Professional 2020

- Commvault Professional Foundations exam
 - Commvault Professional Advanced exam
- Passing both is required for Professional certification*

Commvault Certified Engineer

- Commvault Engineer exam

Commvault Certified Master

- Master Class exam
