Db2 12 for z/OS Advanced Database Administration

CODE:	LENGTH:	PRICE:
CV880G	16 Hours (2 days)	€1,560.00

Description

This course introduces the student to advanced database administration skills, including program preparation and the use of packages, online schema changes, partition management, and stored procedures; as well as performance and availability features of utilities (including LOAD, REBUILD INDEX, REORG, and UNLOAD). This course does not cover distributed data processing, nor does it cover data sharing.

Objectives

Program preparation and the use of packages part 1 Program preparation overview Execution time errors BIND actions Package status and REBIND Deleting a package Determining the table/view qualifier
Online schema changes part 1 Changing data type Adding columns to a table Renaming columns in a table Renaming indexes Adding columns to indexes Versioning
Online schema changes part 2 Pending online schema changes Dropping columns from a table Converting to UTS Other pending changes Impact of pending changes on immediate options Restrictions and considerations
Partition management part 1 Adding partitions Rotating partitions
Partition management part 2 Modifying limit keys Rebalancing partitions
Stored procedures part 1 External stored procedures WLM-established application environments Altering and dropping a stored procedure Commands for stored procedures Execution privileges Catalog information
LOAD and REBUILD INDEX LOAD with parallel index build LOAD partitions in parallel REBUILD INDEX Inline image copies and statistics LOAD SHRLEVEL CHANGE LOAD REPLACE SHRLEVEL REFERENCE
REORG Performance features of REORG Online REORG Inline image copies and statistics Considerations for PBG table spaces Online REORG with LOBs (optional)
UNLOAD Overview Image copy specification $i\frac{1}{2}$ Table-only input specification SHRLEVEL option Modes of operation
Program preparation and the use of packages part 2 (optional) Table mirroring Package versioning Plan management Other REBIND PACKAGE options Application compatibility
Stored procedures part 2 (optional) Native stored procedures Native procedure deployment

Audience

This course is for administrators who need to augment their skills in administering a Db2 12 for z/OS database environment.

Prerequisites

- Familiarity with the z/OS operating system, including TSO, ISPF, and SDSF.
- Familiarity with SQL DML (SELECT, INSERT, UPDATE, DELETE, and MERGE) and DDL (CREATE, ALTER, DROP) statements
- Basic skills administering a Db2 12 for z/OS database environment, including the use of basic utilities, serialization, and basic database security.

$i\frac{1}{2}$

Programme

Program preparation and the use of packages part 1; ½ Program preparation overview; ½ Execution time errors; ½ BIND actions; ½ Package status and REBIND; ½ Deleting a package; ½ Determining the table/view qualifier; ½ Online schema changes part 1; ½ Changing data type; ½ Adding columns to a table; ½ Renaming columns in a table; ½ Renaming indexes; ½ Adding columns to indexes; ½ Versioning; ½ Online schema changes part 2; ½ Pending online schema changes; ½ Dropping columns from a table; ½ Converting to UTS; ½ Other pending changes; ½ Impact of pending changes on immediate options; ½ Restrictions and considerations; ½ Partition management part 1; ½ Adding partitions; ½ Rotating partitions; ½ Partition management part 2; ½ Modifying limit keys; ½ Rebalancing partitions; ½ Stored procedures part 1; ½ External stored procedures; ½ WLM-established application environments; ½ Altering and dropping a stored procedure; ½ Commands for stored procedures; ½ Execution privileges; ½ Catalog information; ½ LOAD and REBUILD INDEX; ½ LOAD with parallel index build; ½ LOAD partitions in parallel; ½ REBUILD INDEX; ½ Inline image copies and statistics; ½ LOAD SHRLEVEL CHANGE; ½ LOAD REPLACE SHRLEVEL REFERENCE; ½ REORG; ½ Performance features of REORG; ½ Online REORG; ½ Inline image copies and statistics; ½ Considerations for PBG table spaces; ½ Online REORG with LOBs (optional) UNLOAD; ½ Overview; ½ Image copy specification; ½ Table-only input specification; ½ SHRLEVEL option; ½ Modes of operation; ½ Program preparation and the use of packages part 2 (optional); ½ Table mirroring; ½ Package versioning; ½ Plan management; ½ Other REBIND PACKAGE options; ½ Application compatibility; ½ Stored procedures part 2 (optional); ½ Native stored procedures; ½ Native procedure deployment;

Session Dates

Date	Location	Time Zone	Language	Type	Guaranteed	PRICE
25 Jan 2024	Virtual Classroom (CET / UTC +1)	CET	English	Instructor Led Online		€1,560.00
18 Apr 2024	Virtual Classroom (CET / UTC +1)	CEDT	English	Instructor Led Online		€1,560.00
25 Jul 2024	Virtual Classroom (CET / UTC +1)	CEDT	English	Instructor Led Online		€1,560.00
31 Oct 2024	Virtual Classroom (CET / UTC +1)	CET	English	Instructor Led Online		€1,560.00
