Lab: IBM RPA with Automation Anywhere Lab: Implementing my first software bot

CÓDIGO:	DURACIÓN:	Precio:
MC09031G	8 Hours	€400.00

Description

Ready to automate with robots?! You too can be a robotics engineer! This lab brings IBM Robotic Process Automation with Automation Anywhere to life where you will build a bot from scratch all while helping speed along routine business work. Everyone has repetitive tasks they do every day. Learn to leverage the power of robotics and cloud to automate, leaving more time to spend on your valuable work. Everyone can learn to create a robot in just minutes!
