IBM Cúram Social Program Management (SPM) 6.x Technical Overview

CODE:	DURÉE:	PRIX H.T.:
ZL1_9D63	2 Jours	€1,400.00

Description

This course provides students with an understanding of the technical features of IBM Cúram Social Program Management (SPM).

Cúram SPM provides a feature-rich development environment that allows organizations to implement social program management solutions. A good understanding of the Cúram SPM development environment, its technologies, and associated concepts is essential for all technical roles involved with Cúram SPM. This course provides an overview of Cúram SPM in terms of its architecture, technical features, and the support it provides for developing custom solutions.

Using examples and hands-on exercises, learners will develop a broad understanding of Cúram SPM, which will enable them to interpret Cúram SPM information sources and take advantage of Cúram SPM features.

Objectifs

After completing this course, students should be able to:

- Define the key components of IBM Cúram SPM
- Outline the runtime architecture and deployment architecture
- Access documentation tools and information sources
- Describe the services for data gathering and intake
- Describe the services for supporting the case lifecycle
- Describe the underlying business and technical services
- Interpret the SPM data model
- List the features of the application development environment (ADE)
- Describe how organizations customize Cúram SPM applications
- Explain the release, upgrade, and support processes
- List the features provided for analytics.

Audience

This introduction-level course is aimed at anyone who requires a technical overview of the Cúram SPM, including developers, technical architects, project executives, database administrators, testers, system administrators (technical), and other technical personnel.

Prérequis

Students must have a basic understanding of n-tier application development and architectures, including object-oriented development and web development technologies. Students must have completed one of the following functional courses:

- Introduction to IBM Cúram Social Program Management 6.0.5: Functional Overview or
- Fundamentals of the IBM Cúram SPM Platform for Business Analysts 6.0.5

Programme

During the course, the following topics are covered:

- The high-level architecture of IBM Cúram Social Program Management (SPM)

- Services to support common SPM functions
- Business and technical services
- Developing solutions with Cúram SPM.

Informations supplémentaires

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process:

<http://w3.ibm.com/services/gbs/evita/BCSVTEnr1.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

- The current GTP list price
- The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.

Dates de session
