Description

Designed for students with previous NetScaler experience, this course is best suited for individuals who will be deploying or managing NetScaler environments.
Learn the skills required to configure and manage NetScaler Citrix Traffic Management features, including Content Switching, Traffic Optimization, and Global Server Load Balancing. At the end of the course, students will be able to configure their NetScaler environments to address efficient traffic switching and resilience requirements including Content Switching, Traffic Optimization, and Disaster Recovery.

Session Dates

On request. Please Contact Us
