IBM Cognos Planning: Overview (V10.1)

CÓDIGO:	DURACIÓN:	Precio:
P8106G	16 Hours (2 días)	€1,100.00

Description

IBM Cognos Planning: Overview (V10.1) is a two-day, instructor-led course designed to provide administrators and project managers a comprehensive overview of the IBM Cognos Planning solution. Participants will learn the purpose and benefits of each Planning component and understand what is involved in creating a Planning Analyst model, and creating a Planning Contributor application based on a model. Participants will perform hands-on demos and workshops while learning the essentials of building a Planning solution.

Objetivos

Please refer to Course Overview for description information.

Público

This intermediate course is intended for Administrators and Project Managers.

Requisitos Previos

There are no prerequisites for this course.

Programa
